Abdi,

Good morning, I wanted to check in on the SM/Seward traffic study. Last month you mentioned that Caltrans would be arriving at decision for a traffic signal in early-February. I would like to give Assemblymember Bloom a status report, I look forward to hearing from you. Thank you!

Sincerely

Tim Harter

Tim, FYI. You might want to contact Abdi directly in the future on this issue. Let me know when you are not getting the level of service you expect. =)

Roger

Ps TIR is traffic investigation report

Sent from my iPhone, please excuse typos

Roger,
Staff has done the filed investigation and has prepared the TIR already.
However, due to other pressing assignments (like PCH) , staff has not had a chance to finalize the TIR and make a decision on if a signal is warranted at this location.
We anticipate finalizing the TIR and arriving at a decision by early February.

Thank you.

Roger/Joesph,

Any update on the below study? I just want to make sure it is being done. Completion estimate?

Sincerely

Tim Harter

Tim, I hope your holidays were enjoyable and this new year will bring you good things.

I'm following up with you regarding the Media District's request submitted to your office back in September 2016, for a traffic study of the intersection of N. Seward St. and Santa Monica Blvd. We believe a full signal at this intersection would, and will greatly relieve congestion and also help prevent accidents. Has this study been done, or can you advise as to when it will be?

Many thanks!
